

TRUTOUCH *VN series* Interactive Display

Quick Start Manual

Welcome to the world of TRUTOUCH.

Thank you for choosing the TRUTOUCH VN Series interactive display. Please use this document to get the most out of your display.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1:This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The symbol of the crossed out wheeled bin indicates this product should not be placed in municipal waste. Instead, dispose of waste equipment by handing it over to a designated collection point for the recycling of electrical and electronic equipment.

Symbols are used in this document to indicate operations that need particular attention. The symbols are defined as follows:

.....

Provides additional information to supplement operation in the main text.
Indicates a potentially hazardous situation that, if not avoided, could result in equipment damage, data loss, performance deterioration, or unanticipated results.
Indicates a hazard with risk that, if not avoided, could result in death or injury.

Safety Instruction

For your safety, please read the following instruction before you use the product. Serious injury or property damage may be caused by improper operations. Do not try to repair the product on your own.

æ	 Disconnect the product from power supply immediately if major failures occur. Major failures include the following: Smoke, peculiar smell or abnormal sound is discharged from the product. No image or sound is displayed, or the image error occurs. In the preceding scenarios, do not continue to use the product. Disconnect power supply immediately and contact professional staff for troubleshooting. 	
	 Do not drop liquid, metal or anything combustible into the product. If any liquid or metal is dropped into the product, power off the product and disconnect the power supply, then contact professional staff for solutions. Pay attention to children when they are close to the product. 	
\bigcirc	Put the product on a stable surface. An unstable surface includes and is not limited to an inclined plane, a shaky stand, desk or platform, which might cause turnover and damage.	
	Do not open the cover or change the product on your own. High voltage components are installed in the product. When you open the cover, high voltage, electric shock, or other dangerous situations may occur. If inspection, adjustment, or maintenance is required, contact the local distributor for help.	
	 Use the specified power supply. To prevent the product from being damaged, do not use any types of power cables other than the one provided with the product. Use a three-wire socket and ensure that it is properly grounded. Pull out the power plug from the socket if the product is not used for a long period. 	
•	 Clean the dust and metal on the power plug regularly. Fire or electric shock may be caused if the product is powered on, when you are cleaning. Pull out the power plug before cleaning it with a dried cloth. 	
	The voltage/current of the rear power output port is 5V/2A (maximum). Purchase the power code/AC adapter according to customer needs. The port can be used for Newline Android box X10D. Please do not connect any products with different power requirement. Otherwise, it may cause damage to products or fire.	

	 Do not put items on the top of the product. Do not put items, such as a container for liquid (a vase, flowerpot, cosmetics or liquid medicine) on the top of the product. If any water or liquid is spilled on the product, a short circuit may occur and cause fire or electric shock. Do not walk on or hang any items on the product. 	
8	 Do not install the product in an improper place. Do not install the product in humid places, such as the bathroom, the shower room, near windows, or outdoor environments that experience rain, snow or other harsh weather. Avoid installation near hot spring vapor. The preceding environments may cause faults in the product or electric shock under extreme conditions. Do not put exposed fire source, such as an ignited candle, on the product. 	
	 Pull out the power plug during thunderstorms. Do not touch the product during a lighting storm to avoid electric shock. Install or place components that supply high enough voltage to cause personal injury out of the reach of children. 	
	Do not touch the power cable with wet hands.	
	 Do not install the product in high temperature environments. Do not install the product near a heat source, such as a radiator, a heat reservoir, a stove or other heating products. Do not expose the product to direct sunlight, which may cause high temperatures and subsequent faults in the product. 	
	 For transport. Pack the product for transport or maintenance by using the cartons and cushioning material provided with the product. Vertically move the product during transport. The screen or other components are easily broken if the product is moved by an improper way. Before you move the product, disconnect all external connections and separate all toppling preventing products. Move the product carefully to prevent it from being hit or squeezed, especially the screen, which may cause injury if broken. 	
	 Do not cover or block up any vents on the product. Any overheated components may cause fire, damage the product, and shorten the service life. Do not lay the product down where the venting surface will be covered.

Ports

Front USB 2.0 ports and rear USB 3.0/USB 2.0 ports switch connections based on signal sources. If the current signal source is reading the data from an external product connecting to the port, please switch the signal source after the data reading is complete. Otherwise, the data or product may be damaged.

Front Ports

Rear Ports

The voltage/current of the rear power output port is 5V/2A (maximum). Purchase the power code/AC adapter according to customer needs. The port can be used for Newline Android box X10D. Please do not connect any products with different power requirement. Otherwise it may cause the damage to products or fire.

You are advised to connect X10D to HDMI rear 2.

Installation Precautions

Weight Loading

Weight of the product: 87.1 lb/39.5 kg (TT-6518VN), 111.3 lb/50.5 kg (TT-7518VN), 143.3 lb/65 kg (TT-8618VN)

- When using a mobile stand, please ensure the weight of the product is less than the loading capacity of the mobile stand.
- When using the wall-mount bracket, please ensure the wall can support the weight of the product. We recommend that the wall surface be reinforced and have a loading capacity 4 times of the weight of the product. Please consult a professional installer for wall-mount installation.

D Note

The company does not undertake relevant legal responsibility for any problems caused by improper operation, if the third party mobile stand, or wall-mount bracket is beyond the scope of the product.

• Do not install the product where it might be hit by a door.

Ventilation

Ensure adequate ventilation and/or air conditioning environment. We recommend keeping certain distances from the side of the product to the wall or panels. Ventilation requirement is shown in following figure.

Installation

The dimensions of the 4 bracket mounting holes on the back panel are VESA MIS-Fcompliant (TT-8618VN or TT-7518VN: $800 \times 400 \text{ mm}/31.50 \times 15.75 \text{ in}$; TT-6518VN: $600 \times 400 \text{ mm}/23.62 \times 15.75 \text{ in}$). Please use metric M8 screws with length of 10 to 15 mm (0.40 to 0.59 in) to secure the touch display with the mounting system. Dimensions of the mounting holes on the back panel are shown in the following figure.

D Note

Please consult a professional installer to install the display product.

• TT-8618VN/TT-7518VN

• TT-6518VN

Installing the Internal PC (Optional)

The internal PC does not support hot plugging. Therefore, you must insert or remove it when the display is powered off. Otherwise, the display or internal PC may be damaged.

The internal PC is not configured by default. You will need to purchase the internal PC separately. Perform the following steps to install the internal PC.

Turning On/Off

Power On

Step 1: Plug the power supply into the power outlet fully and plug the power connector into the side of the product. Ensure the power is in the range of 100V to 240V with frequency at 50 Hz/60 Hz \pm 5%. The power current must be grounded.

D Note

The power outlet should be installed near the equipment and should be easily accessible.

Step 2: Flip on the power switch located on the side of the product to "On".

• TT-8618VN/TT-7518VN

Step 3: Press the power button 0 on the front control panel or 0 on the remote control.

Power Off

Step 1: Power off the screen in the following situations:

- If there is no whiteboard data or screenshot(s), press the power button (b) on the front panel or the power button (b) on the remote control to power off the display.
 Go to Step 4.
- If there is whiteboard data or screenshot(s), store your meeting documentations before powering off the touch display. Otherwise, the product will delete your meeting documentations after the meeting is complete.

Press the power button () on the front panel or the power button () on the remote control. The **Save meeting discussion** page will be displayed as shown in the following figure.

Step 2: Press the power button **(**) on the front panel or the power button **(**) on the remote control again. The **Warning** dialog box will be displayed as shown in the following figure.

	-				0000

			Tile Vanner		00:37

- Step 3: In the **Warning** dialog box, click **Cancel**. You can save files if desired. After files are saved, return to Step 2. Click **Confirm**, and the power indicator will turn to red.
- Step 4: If you are not going to use the product for an extended period of time, we recommend you to switch the power switch to "Off".

D Note

- If an internal PC is equipped, the internal PC and the display are powered off simultaneously when you power off the system.
- Do not forcibly disconnect the power supply of the display when the internal PC is on.

D Operating the Touch Screen

Start Screen

When the product is turned on, the product will show the start screen page. As shown in the following figure.

Home

Touch the screen to start a meeting, and the product will go to the **Home** page. As shown in the following figure.

Main Toolbar

lcon	Functions
Q	Switch to the internal PC source.
(Click Connection to switch to the connected product, including cabled signal sources and wireless applications. Cabled signal sources include HDMI Front, HDMI Rear (1 to 3), and DisplayPort. Wireless applications include Montage and Trucast.
ø	Discussion provides discussion board function and screen annotation functions.
⊕	Gadget displays all pre-installed applications, including Office viewer , Email , Calendar , Gallery , World clock , and Calculator . Click the icon of an application to run the application.
0	Open the File Manager, and you can explore on internal and external files of the screen.
¢	Click Add to enter Add page, you can add up to 7 shortcuts to your favorite software, gadgets or connections to the Home page. (See more detail in "Add Shortcuts to Home Page")
Ent	Click End to end a meeting. Users will have the choice of saving the discussion boards screen captures and ending the meeting. Once a meeting is ended, all screenshots and discussion data are cleared.

D Note

- The first time you turn the display on, only the cable connections appear in Connection. Wireless connection can be added in the **Newline Extension** setting. In this case, the name and icon of the HDMI Rear on the left cabled channel change as the Trucast application is enabled or an external product is connected.
- If the meeting notes cannot be saved to a USB flash memory successfully after the meeting, use a USB flash memory smaller than 16 GB and change the file system into FAT 32 format.

Side Toolbar

The Annotation Mode/Discussion Mode/Home/Return/Windows icons are displayed by default in the toolbar at two sides of the screen. The bottom side toolbar can be customized as your choice (The default icon is Windows). You may also hide the side tool bar at the setting or move it up and down, shrink or expand by gestures. You may double-click the — to expand or shrink the toolbar. Long press the customized icon to unfold level-2 icons.

The functions of the side toolbar are as follows:

lcon	Functions
	Enter annotation mode, and click again to stop annotation and save screenshot.
	Enter discussion mode.
ŵ	Go to Home page.
\diamond	Return to the last menu/Exit.
PC	Enter the internal PC source.
٦	Manage currently running applications. Slide left/right the currently running application or click "×" at the upper right corner to close the application.
÷	Enter the favorite source.
	View all gadgets.

Status Bar and Settings

The upper right corner of the home page displays three working status icons (including USB flash memory(s), Ethernet, and Wi-Fi), and system setting shortcut.

lcon	Functions
0	If USB flash memory(s) is connected to the USB port, this icon will be turned on.
	If the product is connected to Ethernet, the icon will be turned on.
	If the product is connected to a wireless network, the icon will be turned on.
\odot	Access the system setting page.

Add Shortcut

Add Shortcuts to Home Page

Step 1: On **Home** page, click the **⊡** icon in the lower right corner. The interface for adding shortcuts will be displayed.

- Step 2: Click the icons on top to switch the list between Windows programs, external signal sources, and pre-installed gadgets.
 - Click and to view the Windows programs that the Newline Assistant uploads to the Smart system. For details, see "Add Quick Start Windows Programs in Smart System".
 - Click = to view signal sources in Connection. You can set the Newline accessories to signal sources at Newline Extensions setting.

Click to view Gadget applications.

Step 3: Add or delete applications on the tab.

- In the list, click the icon to add it to the shortcut on the home page. The check icon will appear at the bottom of the shortcut icons. Up to 7 shortcuts can be added.
- Tap the icon with the check mark again, the check icon will disappear and the shortcut will be deleted from the **Home** page.
- Step 4: At the **Home** page, click the shortcut icon and you can start the program/application or change to the external signal source.

Newline Assistant

Introduction

Newline Assistant is the tool used as a bridge between smart system and Internal PC (OPS). It helps to add windows software to smart system as well as to protect USB data/ camera USB data/camera when switching between sources.

Therefore we strongly recommend users install Newline Assistant after installing the internal PC.

Installation

- Step 1: Connect Internal PC correctly (See also "Installing the Internal PC ").
- Step 2: On the **Home** page, click **Windows**. It will switch the signal source to Internal Windows system.
- Step 3: Log in to the website www.newline-interactive.com and choose **Products > Software** to download the Newline Assistant installation package.
- Step 4: Install Newline Assistant as instructed.

Add Quick Start Windows Programs in Smart System

R Tip:

Step 1: In Windows, run the **Newline Assistant** program and drag the software icons or folder shortcut icons that you want to add from desktop or menu to the **Newline Assistant** window. The applications added or deleted through the Windows system will be automatically updated to the smart system until the upload progress reaches 100%. If there is an application not updated, click () in the upper right corner to manually update all icons in the Newline assistant window to the smart system.

<image>

Step 2: Click m to return to the **Home** page. Click the return and go to shortcut setting. The page for adding application program will be displayed.

Step 3: At the shortcut setting page, click i icon to view all the Windows programs added by Newline Assistant in Step 1.

D Note

By default, the Newline Assistant application is added on the **#** tab.

- Step 4: Tap the icon and add the shortcut at the Home page. Tap again and remove it.
- Step 5: Return to **Home** page. Click the icon of an added Windows application to start the software.

Quick Setting Menu

Using two fingers to swipe up from the bottom of the screen, the quick setting menu will then show up, as shown in the following figure.

lcon	Functions
Ċ.	Drag the slider to adjust the brightness.
•	Drag the slider to adjust the volume.
	Click the icon to mute/unmute.
0	Click the icon to turn on/off the beep sound.
	Click the icon to turn on/off the blue light filter.
6	Click the icon to turn on/off the Smart system Wi-Fi.
Ø	Click the icon to turn on/off the audio only function.
	Click the icon to turn on/off the left toolbar.
	Click the icon to turn on/off the right toolbar.
\odot	Click the icon to enter the settings page.
G	Click the icon to return to Home page.
