

Solutions for every classroom

Why Newline

At Newline, we believe that the classroom tools of the future should be easy for anyone to use. We are dedicated to providing solutions that keep students engaged and make teaching simple.

Easy to use

All of our solutions are designed with teachers, students, and IT staff in mind.

100% Non-proprietary

Our solutions give you the freedom to teach and learn how you like, no matter what software or device you use.

- *Remote lectures*
- *Remote training*
- *Lesson broadcasting*

Study Room

Key Features

- One-click whiteboard for instant brainstorming and discussion
- Wireless content sharing from any device
- Two-way screen control
- Built-in file viewer
- Movable stand for flexible discussions

Benefits

- Hold productive discussions and brainstorming sessions
- Easily connect your personal device to present for maximum convenience
- Never let a single idea slip away with instant on-screen annotation
- Open and save files directly on the display through the cloud or a USB flash drive
- Replace outdated flipcharts and whiteboard setups

Setup

Display: RS65

Software: Newline Cast

Accessories: On-board PC, movable stand

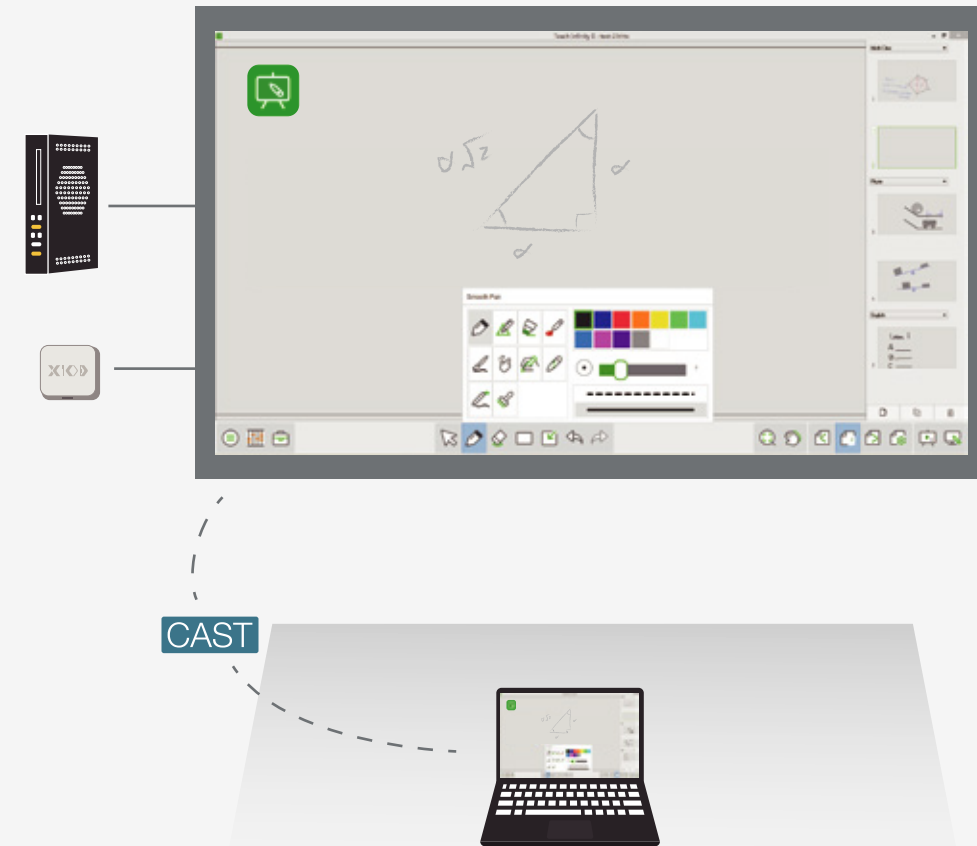

Classroom

Key Features

- Responsive touch for a smooth and intuitive writing experience
- One-click whiteboard and annotation for engaging lessons
- Powerful speakers
- Wireless content sharing from any device
- Optically bonded display for a clear view from anywhere in the room
- Enable remote display management and IT support for teachers

Benefits

- Replace traditional whiteboard and projector setup with a single display
- Use any of your favorite software with the familiar Windows system
- Download any educational app from the Android app store onto your display
- Save lesson notes to pick up right where you left off at any time
- Let multiple students touch and draw at the same time, lag-free

Setup

Display: VN75, VN86

Software: Newline Cast, Newline Display Management, Teach Infinity II

Accessories: On-board PC, wall mount, X10D

Lecture Hall

Key Features

- Large-scale display
- Wireless content sharing from any device
- Display screen broadcasting to any device
- Two-way screen control
- Built-in file viewer
- One-click whiteboard for instant brainstorming and discussion (RS Series)

Benefits

- Sync screens on both displays so everyone can see the content clearly
- Share display screen in real-time to any connected device for more classroom engagement
- Control content from both the display or your PC for convenient and flexible teaching
- Open and edit files directly on the display without needing to connect your personal device

Setup

Display: RS98 x2, NT85 x2
Software: Newline Cast, Newline Broadcast, Newline Display Management
Accessories: On-board PC, wall mount

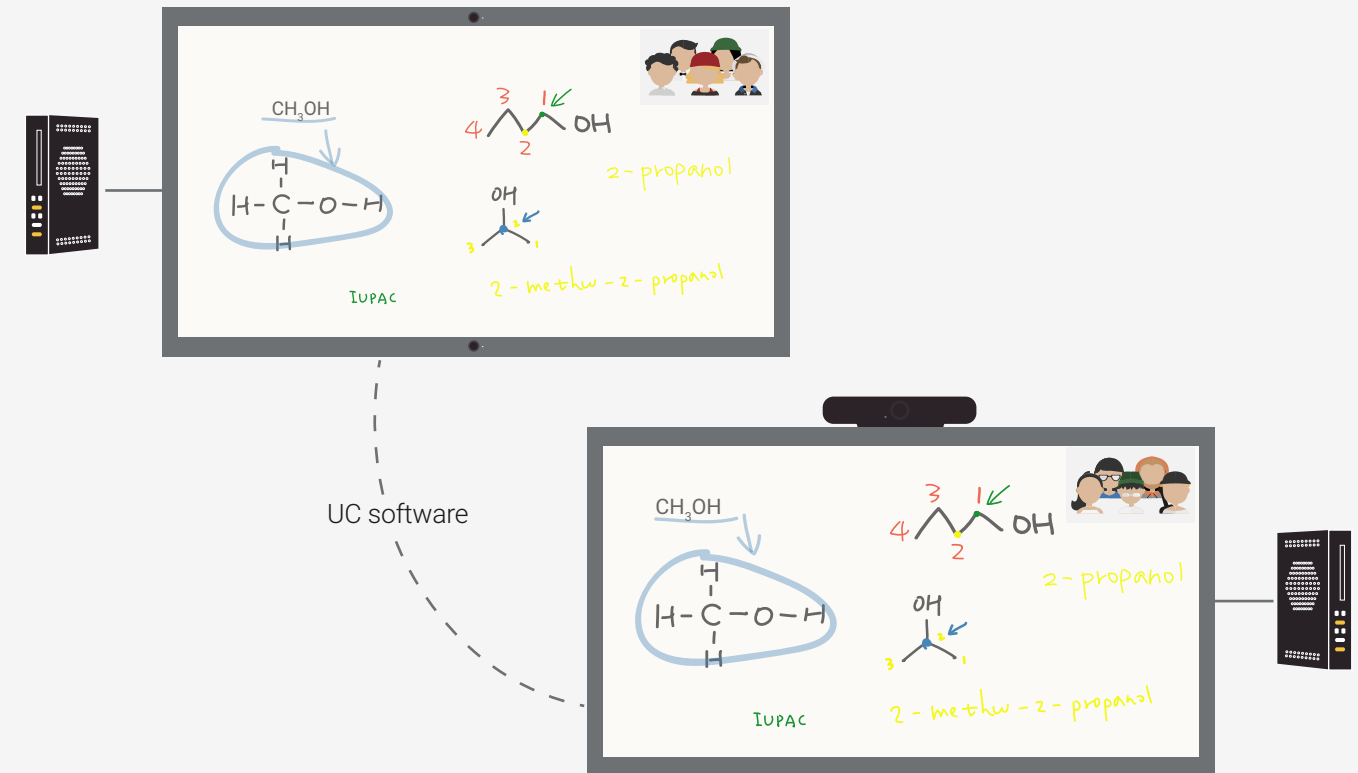

Remote Learning Space

Key Features

- All-in-one video conferencing solution
- Powerful speakers
- Wide-angle camera
- Noise reduction and echo cancellation microphone
- Optically bonded display for a clear view from anywhere in the room

Benefits

- All-in-one solution for easy installation and setup
- Broadcast lessons to students anywhere in the world as if you were in the same room
- Invite remote lecturers from any location
- Increase student engagement and facilitate discussions across locations
- Use the UC software of your choice to give and join remote lectures

Setup

Display: X Series, VN Series

Software: Newline Display Management, UC software of choice

Accessories: On-board PC, wall mount, Newline 4K Camera (for VN Series)

■ Newline Interactive Ecosystem Software

DISPLAY MANAGEMENT

Centrally manage all your Newline displays from any location through a secure web portal. Easily deploy apps, configure display settings, use digital signage features or broadcast messages to all displays.

CAST

Easily share your screen from any device. Control and annotate from the Newline display or from your own device, all with the freedom to walk around the room

BROADCAST

Share the Newline display screen in real-time to any participant connected. Easily invite up to 200 participants to connect their own device from, classroom, lecture theater or any other place in the world with a network connection.

Teach Infinity II

Engage your students with an intuitive, easy-to-use education software made to enhance learning in any subject. Choose from a large list of editable tools for math, physics and chemistry to upgrade everyday interactive learning.

■ Android Mini-Computer

X10D

Download all your favorite apps from the built-in Android app store with X10D. Get access to over a million apps right on your display with an easy to use mini-computer.

NT Series

Streamline your lessons and bring your presentations to life. The NT Series is a non-touch display that focuses on just the tools you need to make an impact in the classroom.

■ Success Stories

Mark Baratta
Computing Director, University of Washington

“People here have found the X7 to be very easy to use – so easy that they often do not need assistance from local technical support. This of course means that those of us doing technical support like the X7 a lot!”

Steve Doughty
Assistant Principal, Eisenhower Middle School

“I have been absolutely blown away by the quality and features of the product! Adding the Newline display system capabilities to our classroom has made a lasting, permanent and positive impact on the educational experience at our school.”

John O'Hara
Director of Technology, National Flight Academy

“The 28 Newline touchscreens have been instrumental in setting the immersive tone at the National Flight Academy. Our students depend on these touchscreens as they plan, brief and coordinate each of their missions.

During the 2017 Summer, over 1600 students used these 28 Newline touchscreens and the National Flight Academy has been extremely pleased with their performance.”
