NT Series

Superior Image Quality	Seamless Wireless Casting	Access to the Cloud	Non-Touch Display	Impressive Embedded OS **8.0**	Remote Management	Control by Remote	Compatible with all Devices

STREAMLINE YOUR SUCCESS

The NT Series is a non-touch display that brings your presentations to life in vivid Ultra-High Definition (4K) resolution. Focus on just the tools you need to succeed in your organization without paying more for features you won't use.

Wirelessly cast to the screen from any mobile device, tablet, desktop, or laptop. Whether you use Windows, Mac, or Chrome, the NT Series lets you share your screen through a wireless connection or through the multiple I/O ports built into the panel. Access your files on your preferred Cloud storage system right on the display. The built-in file viewer lets you easily navigate through local files, Cloud storage, and files from connected USB thumb drives.

Rediscover the simplicity of real innovation with the new NT Series.

Newline NT Series includes the following software solutions
