WIRELESS **CONTENT SHARING** MADE EASY

Share your large screen to your audience's small screens for easier viewing – all with one button. Real-time sharing makes it easy to broadcast live annotations, and details hard to see from afar. Easily invite up to 200 participants to connect their own device from the same space or anywhere in the world with a network connection. Perfect for large meeting rooms, lecture halls, and 1-to-1 classroom setups.

Compatible with:

iOS
