

newline On-Board Computer

Each interactive display comes with an OPS slot, allowing you to embed an OPS computer right into your display, no extra devices needed.

POWERED BY INTEL

The integrated OPS computer is powered by Intel processors, and brings you all the power of a desktop computer built right into your display.

WORK MORE PRODUCTIVELY

Annotating on images, utilizing the whiteboard application, and more have never been easier without needing to download software to any of your own devices.
