- ▶ Connect on the fly, using the Newline CAST application, AirPlay, Miracast or your browser
- ▶ It doesn't matter what internet connection you use, mobile data, wifi, a hotspot or any combination will work!
- ▶ Connect up to 6 devices at the same time
- ▶ Easily share photos, videos, links and files
- ▶ Two-way collaboration, annotate and control from both your device and the interactive display
- ▶ Guaranteed security with unique 4-digit pin and end-to-end encryption

newline **BROADCAST**

SHARE YOUR PRESENTATION, **INSPIRE** YOUR AUDIENCE

Newline Broadcast is a powerful streaming tool to share content from your Newline interactive display to any connected participant. Give more power to your presentations. Easily invite up to 200 participants in the same room and allow anyone to view the Newline interactive display content from their device.

newline DISPLAY MANAGEMENT PLUS

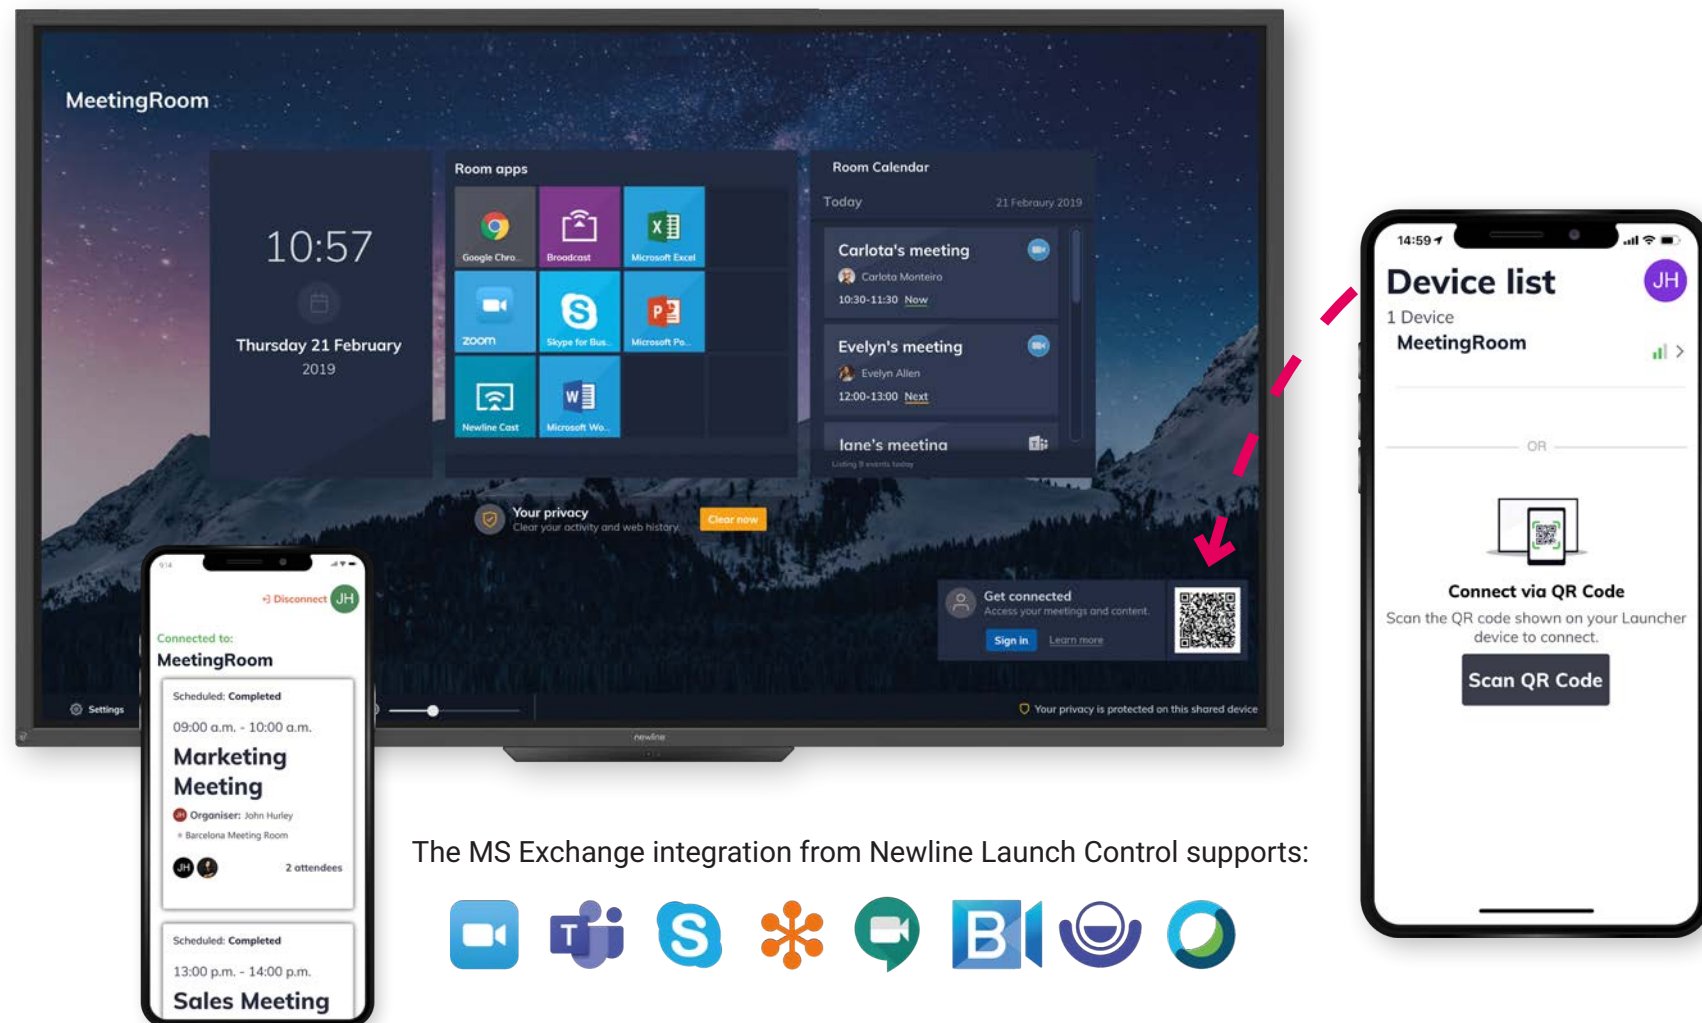

MANAGE ALL YOUR INTERACTIVE DISPLAYS

You can manage all your Newline interactive displays from anywhere through a dedicated and secure web portal. Centrally manage apps, OS settings, install applications and updates or even configure the parameters of the Newline interactive displays remotely. This innovative tool also let's you broadcast alerts or important messages to all interactive displays or to a selection. And IT administrators can support users by taking remote control of the Newline interactive display and give voice assistance.

START EVERY VIDEO CALL QUICKLY AND HASSLE-FREE

With one QR-scan and a touch you can simply start any type of video call from your mobile device! Either scan the QR-code on the interactive display or connect wirelessly via Bluetooth low energy. Through connection via your O365 account, your calendar appointments of the day are visible. This way you can start your video meeting with only one touch with all your personal documents at hand from your OneDrive. This ultimate high-end tool is designed for easy and personalized access to your Newline interactive display.

NEWLINE TOUCHSCREENS

PREMIUM QUALITY FOR AN INSPIRING USER EXPERIENCE

The Newline interactive ecosystem is powered by a full range of Newline interactive displays to suit any workplace. From meeting room to classroom, from huddle space to office. Newline interactive displays are available in a wide variety up to 98".

OPTICAL BONDING TECHNOLOGY

All Newline interactive displays designed for corporate use have optical bonding technology. This makes our corporate product ranges unique and of the highest available quality in the market. Discover which Newline interactive display best suits your workplace!

CERTIFIED

**OPTICAL
BONDING**

ABOUT OUR **SECRET RECIPE...** IT'S ALL IN THE **GLUE!**

Traditionally, interactive displays have an air gap between the LCD panel and the glass of the display. This air gap has many disadvantages. Therefore bonding solutions are becoming more popular. There are many ways to bond LCD panels or touch sensors to cover glass. Air bonding, zero gap, direct bonding, optical bonding. Air bonding or bonding with an adhesive makes a huge difference. The used technology and type of adhesive ultimately determine the level of advantage. Newline's method of bonding results in the maximum possible advantage of bonding. The secret recipe of adhesive has made bonding Newline's signature. Curious? Experience the difference yourself!

- ✓ Most accurate and fluent touch experience
- ✓ Crystalclear image quality
- ✓ Maximum viewing angle
- ✓ Protected against dust and moisture
- ✓ Super safe glass, shock absorbing, extra durable
- ✓ Ultra lightweight

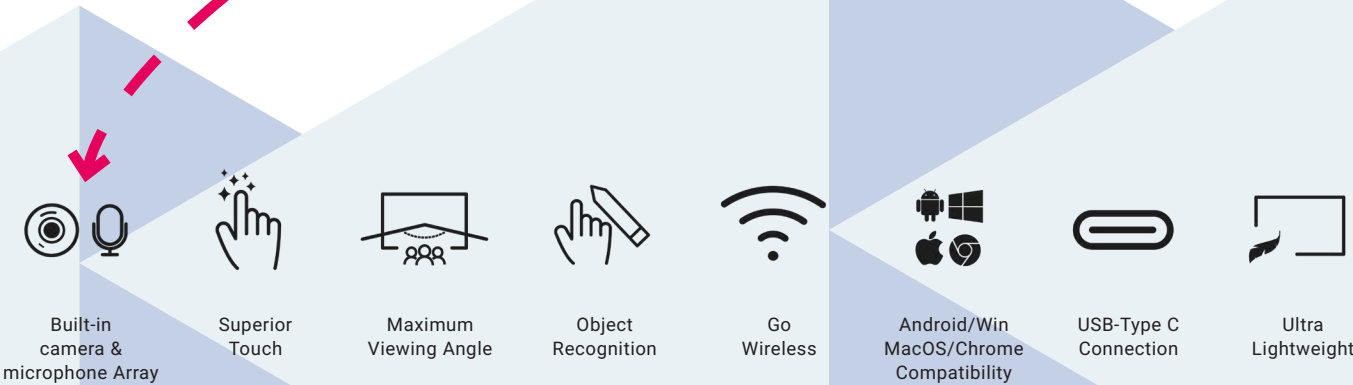

THE SMART **ALL-ROUND** MEETING ROOM SOLUTION

MIRA has it all! Being Newline's most versatile display, this solution will fulfill nearly every need in the corporate workspace. Suitable for meeting rooms, huddle spaces, lecture halls and offices MIRA is the proven succesful solution. The combination of optical bonding and advanced IR touch results in exceptional touch accuracy and a smooth writing experience with recognition of pen, finger and palm. But there is more! Other optical bonding benefits are clear images, vibrant colors and a true 178° viewing angle.

The built-in camera and microphone facilitate easy collaboration and video calls. Unique fast keys make navigation between your favorite apps, interactive whiteboard, computer and any other source super easy. The integrated interactive ecosystem tools enable secure wireless presentation and collaboration. The flexibility of MIRA makes this interactive display the ultimate solution for your workplace!
