## REMOTE **SETTINGS CONTROLS** FROM ANYWHERE IN THE ROOM

Flexible control from the podium to the door! Newline's In-Room Display Controller (IRDC) gives you the ability to change commonly used display settings from anywhere in the room. Quickly access controls such as input switching, volume, brightness settings, and power.

Whether you need quick access from the podium, or the ability to turn on your display from the room's entrance, IRDC can be placed or mounted where you need it.

The IRDC comes with a tablet, security enclosure, security wall/surface mount, and power cable.

# In-Room Display Controller

## IRDC Specifications
