

# Room Calendar newline

## newline LAUNCH CONTROL

### EASY **ONE-TOUCH** VIDEO CALLS

Launch Control facilitates meetings by providing secure, easy access to Microsoft Teams and Zoom calls, plus all your favourite apps on the meeting room screen. With one QR-scan and a touch you can simply start any type of video call from your mobile device! Through secure connection via your Office 365 account and Google account, your calendar appointments are visible. This way you can start your video meeting with all your personal documents at hand. Launch Control is designed for easy and personalised access to your Newline interactive display.

#### **SECURE AND EASY TO USE FOR ANY MEETING ROOM GUEST**

Kiosk Mode provides a clean desktop for the meeting room interactive display allowing meeting room users easy access to pre-set Apps and URLs. Built-in security options remove cached data, close applications and clean up the device for the next meeting. No data stays behind!
