We Help You Make an Impact In Your Classroom

Newline creates the classroom tools of the future. From interactive flat panels that keep students engaged through the lesson, to digital tools that enhance your favorite software, Newline reinvents student engagement and classroom communication in a time of remote and blended learning.

Newline Interactive is an award-winning manufacturer of interactive displays, intuitive software, and other interactive innovations that are easy to use and increase student engagement in the classroom.

We are a leading provider of software and hardware that helps schools find more ways to engage their students, train their teachers, and inspire more active learning.

It is your passion to teach. Newline Interactive gets students excited to learn.

TRANSFORM YOUR
CLASSROOM

Newline is a one-stop shop for schools. Our all-in-one solutions and accessories give you all the innovative tools you need.

Newline focuses on creating products that help you teach more effectively. From our award-winning and easy-to-use interactive touch panels, to our innovative desktop solution and wide range of software, Newline has everything you need to make in-person and remote instructions a breeze.

Easy for Anyone to Use

If a solution isn't easy to use, we won't bring it to the market. All of our products are designed with you in mind and it is the key to our success.

Completely Non-Proprietary

We work in your world. No matter what software or hardware you want to use, our solutions give you the freedom to collaborate how you choose.
Distance Learning Flexibility

Whether teaching students remotely, in-person, or in a blended learning environment, Newline's solutions help keep your teachers connected to their students.

Newline is Number 1!

Newline is the largest manufacturer of interactive displays in the United States. Our business model keeps us growing like none other.

FROM OUR CUSTOMERS

David Flynn
Macon County School System

"Newline's products are engaging our students in classrooms across the Diocese and our teachers love them for their ease-of-use. We also value the level of tech support and onsite training Newline provides whenever we need it."

Cynthia Herndon
Roman Catholic Diocese of Dallas

"We chose Newline after trying out a couple options. As a G Suite district and invested in Chromebooks, Newline was a clear winning choice. The Chrome compatibility, advanced features, and their support have made this a real winner for the classrooms in our district."

Ed Kemnitzer
East Williston School District

"Newline has enabled us to provide a seamless experience to kids without interference. The panels are not in the way, they are part of the process. All of our teachers have found their niche and love how easy it is to use the panel."

Karina Garcia
St Bernard of Clarivaux Catholic School

"Our Newline interactive flat panels are very easy to use and that means more teachers and students are really using them! We are so pleased that we have these tools in our classrooms!"

Nicholas Provenzano
The Nerdy Teacher

"Flex was something I didn't know I needed. The inability to draw and annotate digitally is a consistent pain point for a lot of educators. Flex makes clean communication possible in annotation which is what you're looking for especially in a design class which is all about 'hey you wanna move this here', 'you know what about this', or 'change this'. That's huge.

"Adding a Flex to my Makerspace has allowed me to take digital design and creation to the next level. Giving students access to tools like this prepares them for the next level of their learning."

Kyle Berger

Grapevine-Colleyville
Independent School District

"Newline is the heart and soul of our classroom ecosystem. Our teachers now deliver instruction from their interactive panel that is joined to our interactive online videoconferencing system. By adding webcams into our classroom, they can now teach the students in-person and at home at the exact same time all within the ecosystem that they were presenting in normally."
