Meet Merlyn

Simple, safe, and powerful
AI solutions for educators

AI can't replace teachers, but it can support them. The Merlyn AI
assistant saves time, reduces tech stress, and allows teachers to
do what they do best – connect with students.

Save time

Merlyn is easy to use and automates
low-value tasks in common instructional
workflows.

Reduce stress

61% of teachers using Merlyn reported an
overall reduction of technology-related
stress in just 7 weeks, research shows.

Focus on students

Merlyn creates more space for teacher-
student engagement and improved learning
outcomes.

Responsible AI

Our Responsible AI team works to ensure that Merlyn solutions
adhere to the highest standards for safety as we develop cutting-
edge artificial intelligence for education. With Merlyn, districts can
leverage the power of AI in compliance with FERPA and COPPA.

Purpose-built

Merlyn was built
from the ground
up specifically for
education.

Safe

Merlyn's industry-
leading safety
model is applied
on all prompts and
responses.

Reliable

Merlyn's responses
are grounded in
walled gardens of
content.

Transparent

Merlyn's safety
model is open-
source, allowing
educators to test
and explore.

Private and secure

We do not
sell personal
information or
retain voice audio
after processing,
and we protect
user data from
vulnerabilities.

Fair

Merlyn's AI systems
are actively
tested for bias
against evaluation
benchmarks.
