

Using the Home Screen

To access your menu from the home screen, press the menu button (three horizontal lines) on your NT+ remote.

Gadgets

Scroll to the right with your NT+ remote to access more apps.

Sources

When you have a source connected to your NT+, the icon for that source will highlight in white.

Settings

Reverse X-axis: Only applicable to 55" and 65" NT+ panels. This will rotate the orientation of your display.

Mute: Toggling this on will mute the sound on your display.

Volume: Use this slider to adjust the volume of your display.

Brightness: Use this slider to adjust the brightness of your display.

Display Mode: This adjusts the brightness of your panel to pre-set values based on the mode chosen.

OTA: This will allow you to perform an over the air update of your display if available.

Other Settings: This will provide access to other settings on your display, including: date and time settings, wallpaper settings, and power settings.

Using the Remote

Input letters, numbers, punctuation, etc.
