FROM OUR CUSTOMERS

David Flynn

Macon County School System

“Newline’s products are engaging our students in classrooms across the Diocese and our teachers love them for their ease-of-use. We also value the level of tech support and onsite training Newline provides whenever we need it.”

Cynthia Herndon

Roman Catholic Diocese of Dallas

“We chose Newline after trying out a couple options. As a G Suite district and invested in Chromebooks, Newline was a clear winning choice. The Chrome compatibility, advanced features, and their support have made this a real winner for the classrooms in our district.”

Ed Kemnitzer

East Williston School District

“Newline has enabled us to provide a seamless experience to kids without interference. The panels are not in the way, they are part of the process. All of our teachers have found their niche and love how easy it is to use the panel.”

Karina Garcia

St Bernard of Clarivaux Catholic School

“Our Newline interactive flat panels are very easy to use and that means more teachers and students are really using them! We are so pleased that we have these tools in our classrooms!”

Nicholas Provenzano

The Nerdy Teacher

“Flex was something I didn’t know I needed. The inability to draw and annotate digitally is a consistent pain point for a lot of educators. Flex makes clean communication possible in annotation which is what you’re looking for especially in a design class which is all about ‘hey you wanna move this here’, ‘you know what about this’, or ‘change this’. That’s huge.”

“Adding a Flex to my Makerspace has allowed me to take digital design and creation to the next level. Giving students access to tools like this prepares them for the next level of their learning.”

Kyle Berger
*Grapevine-Colleyville
Independent School District*

“Newline is the heart and soul of our classroom ecosystem. Our teachers now deliver instruction from their interactive panel that is joined to our interactive online videoconferencing system. By adding webcams into our classroom, they can now teach the students in-person and at home at the exact same time all within the ecosystem that they were presenting in normally.”

Proudly Serving Districts Coast to Coast
