EFFORTLESS DIGITAL SIGNAGE

Newline Signage Pro is an advanced digital signage software designed to make content management and deployment simple and efficient. Its comprehensive online admin portal allows users to easily manage their cloud library, customize layouts, and oversee user accounts all in one place. The streamlined registration process supports device registration using serial numbers, QR codes, or bulk uploads via Excel, ensuring quick and hassle-free setups. With efficient device grouping, content deployment across multiple devices becomes seamless. Users can choose from six versatile pre-defined layouts tailored for different display configurations, ensuring content looks professional in any setting. The drag-and-drop content creation interface is user-friendly, while rich content support allows for a wide range of media, including live feeds, images, videos, and more. Engage your audience further with real-time live feed integration from platforms like YouTube Live and Twitch. The platform also offers simple scheduling, Canva integration, and the ability to sync with Google Slides and Calendar, making it ideal for dynamic content creation. Additionally, Newline Signage Pro features an app auto-launch for seamless content readiness, customizable text formatting, and comes fully integrated for Q Pro & STV+, providing a complete digital signage solution for schools and businesses.
