newline LAUNCHER

SIMPLIFY EVERY MEETING FROM START TO FINISH

For too long, meeting rooms have been a source of frustration. Newline Launcher puts IT back in control delivering secure, consistent, and easily managed meeting experiences across every space.

Rooms That Just Work

Every meeting starts first time, every time. A refined, faster interface and consistent layouts mean fewer interruptions and fewer support tickets.

Shared Spaces Safely Managed

Kiosk Mode and automatic data cleanup keep every session private, protecting credentials, chats, and files without extra tools.

Spaces That Earn Their Keep

New screen-saver messaging keeps rooms useful even when idle, extending hardware life and boosting ROI across every site.

Central Management for IT

Configure once, deploy everywhere. Real-time room visibility, remote resets, and policy enforcement all from an IT admins desk.

Fast to pilot. Easy to scale. Simple to manage.

Deploy Newline Launcher with no downtime, no retraining, and no new hardware. Because delivering great meeting experiences shouldn't mean creating more work for IT.
